## DESCRIPTION

Personal protective equipment (PPE) is any device worn by a worker to protect against hazards. Some examples are respirators, gloves, ear plugs, hard hats, safety goggles, and safety shoes or boots. This module will teach learners the importance of using, wearing, and maintaining their personal protective equipment. Upon completion of this training, learners will understand their roles and responsibilities in regards to PPE, the different CSA standards for PPE, how to select the right PPE for the task and what to do when equipment becomes defective.

## LEARNED TOPICS/OBJECTIVES

Upon successful completion of the program, you will be knowledgeable and/or demonstrate proficiency in understanding:

- Employer and employee responsibilities for PPE
- Different types of protection including head, eye, footwear, skin, respiratory, hearing, etc.
- How to control hazards with different types of PPE

## ASSESSMENT

Testing conducted throughout this course is designed to reinforce the information presented. A mark of 80% must be achieved in order to receive a certificate of completion. Participants are able to repeat the course if the pass mark is not achieved. Upon successful completion of this online course, a certificate of completion will be available for download and printing.
