

TRAINING SUMMARY

COURSE NAME Principles of Proactive Security LENGTH 3.5 hour webcast

COST \$179.99 LANGUAGE English

DESCRIPTION

Learn about Proactive methodologies for Risk Mitigation & Threat Prevention

Principles of Proactive Security brings you into the classroom from wherever you are. It is internet-based, so that you can view and learn from this 3.5 hour webcast presentation on your desktop, laptop or iPad at your convenience and leisure. This webcast series is the perfect alternative for those unable to attend in-person training programs.

The *Principles of Proactive Security* class is presented by a leading security training expert, Amotz Brandes. He takes his students - and you - through an explanation of the nature of threat and how to defeat it. He explains how to build and maintain a proactive security system that is threat oriented and adversary based.

LEARNED TOPICS/OBJECTIVES

- Learn the nature of criminal and terrorist threats
- Learn the difference between proactive and passive security systems
- Learn about procedures and security system design that is geared towards deterrence and prevention
- Learn the threat assessment process
- Learn how to evaluate security from the adversary's point of view.
