905-592-2848

COURSE NAME **RECOGNITION ASSESS CONTROL – HAZARD ASSESSMENT** LENGTH 60 mins

COST \$49.99 LANGUAGE English VOICEOVER Yes

DESCRIPTION

The “recognize, assess and control” (R.A.C.) method of dealing with hazards is actually a specialized form of problem solving. The problem is to anticipate hazards and then take action to prevent injury and illness to people or to control property losses.

A workplace hazard assessment is a tool used to assess the workplace and identify hazards before they become a problem. It is a requirement under the law, that employers know their workplace hazards and implement controls to reduce or eliminate them. This module will teach participants to use the workplace hazard assessment form in conjunction with the recognition, assessment and control principles to deal with all hazards.

LEARNED TOPICS/OBJECTIVES

Upon successful completion of the program, you will be knowledgeable and/or demonstrate proficiency in understanding:

- What is a hazard?
- Routes of entry
- The different types of hazards – physical, biological, ergonomic, psychosocial and safety
- Conducting inspections
- Implementing controls for prevention
- Hygiene and facilities

ASSESSMENT

Testing conducted throughout this course is designed to reinforce the information presented. A mark of 80% must be achieved in order to receive a certificate of completion. Participants are able to repeat the course if the pass mark is not achieved. Upon successful completion of this online course, a certificate of completion will be available for download and printing.

Discounted pricing starts at 3 or more courses. Pricing available for individuals or companies. Contact RSMac Consulting Inc’s Learning Centre team directly at training@rsmac.ca for a quote on volume discounts and discuss our Learning Management System for companies.
